

The PD 1010-L Audio Amplifier is a 100W low-impedance Class D audio amplifier. The unit is designed to receive analog audio via its 0dB Line Input and reproduce high-quality audio suitable for music, paging announcements, and audio advertisement reproduction. It is specifically designed to complement the RAS, VRX, VEB, VBS, and RAS series to enhance the amplification power of those systems. The PD 1010-L unit is best paired with the AEX System H Series professional speaker range.

Technical Specification

	PD 1010-L
Rated Output Power	2 x 50W , 4 Ω BTL, 1 x 100W, 2 Ω PBTL ,
Frequency Response	20Hz ~ 20kHz
Protection	Short circuit and Overload protection
Power Requirement	24 Vdc -5 A
Material & Finish	Mild Steel Casing, Black
Dimensions	107 x 46 x 124 mm (W x H x D) (without ear bracket)
Weight	0.40 kg
