

The LS 12M+ Expander seamlessly enhances the capabilities of the Mplus PA system by introducing additional output zones tailored to meet clients' specific requirements. Designed to be controlled from the Mplus Main unit, each Zone Expander extends 12 zone outputs. With the flexibility to incorporate up to 7 LS 12M+ units, the Mplus system can efficiently manage a total of 96 zones, inclusive of the Main Mplus unit. This expansion empowers users to create a customized and scalable Public Address solution that precisely aligns with their spatial and operational needs.

Technical Specification

	LS 12M+
Connector	100V line : 5.08mm Plug-in screw type terminal block
Indicators	Green LED indicator for each zone, All Call, and Power
Max. Current Handling	500W per channel
Power Requirement	24 Vdc Regulated, 0.32 A (Fuse : 1.0 A)
Material & Finish	Mild Steel; Epoxy Coated; Black
Dimensions (W x H x D)	483 x 44 x 150 mm
Weight	2.0 kg
